Dear Mr. Weinstock:-

Your letter reached me the day after I wrote you regarding the color photograph for Erna Fergusson's NEW MEXICO. I am sorry indeed that you are having to give up the idea of a color photograph for the jacket.

Since the transparencies I sent you were made specifically to your order as to placement of sky line etc. I fear that they will be difficult indeed to place elsewhere unless I can find just such a need. I spent a day and a half on the job plus photographic costs and about sixty miles of driving. Mileage plus film costs come to \$14. Call my time on the job \$16. and send me the transparencies and I will try to place them elsewhere. So if \$30. is satisfactory to you, it will be to me. I hope another time I can do something less for you.

Sincerely yours,
