

Jan. 8, 1951

Mrs. Charles A. Wheatley,
617 Maverick Bldg.
San Antonio, Texas.

Dear Mrs. Wheatley:-

Yes indeed, I remember you very well. I am pleased to hear that you like my Rio Grande and I assure you that I shall look forward to seeing your "Lady Angler".

As to your request to use the pictures from my own book, I regret that would not be possible. They were made expressly for this book and cannot be used in any other. However, I have other material which might be of interest to you. On the packtrip to the headwaters of the river, I made quite a number of pictures, and I recall several as well as others similar to page 32 which you might like. As to the one on page 71, I made only the one at this point of the river.

If there is sufficient time, I shall be glad to make prints of some of these others for you. As you may recall, my kind of photography is not of the snap shot variety, every one being very carefully made and processed to obtain maximum results. I recall making some other angler pictures at another time of year near the same place as page 32, and then, of-course, there are many other river pictures which were not used in the book.

Hoping that some of these might be satisfactory for your purpose

I am

Sincerely yours,
