Miss Laura Gilpin
837 El Caminito
Santa Fe, New Mexico

Dear Miss Gilpin:

In a recent issue of the Journal of the AIA, I saw a picture which you had done of some frescoes of the Colorado Springs Fine Arts Center.

I thought this was a striking picture and would like to buy one glossy print of this, and the right to use it in an architectural booklet which we expect to put out this year.

I am told by Miss Ruth Heflin of Meem, Zehner, Holien & Associates, that quite a bit of aluminum was used in this building. If you did a complete study in this building, and have any other shots showing our beautiful material, I wonder if you would submit them for inspection, and perhaps subsequent purchase.

Cordially yours,

ALUMINUM COMPANY OF AMERICA
