Dear Miss Gilpin:

I hasten to answer your letter of February 14 addressed to Dr. Ortega, who is ill and has asked me to attend to his correspondence. He is leaving tomorrow for a long rest and we have made a copy of your letter and sent to him. He undoubtedly will wish to correspond with you also.

Since it was I who took care of the editorial instructions to the University Printing Plant for this issue, I am greatly disturbed about what has happened in the reproduction of your photographs. If you will please send to us at once the layouts made by Miss Gentry, which were sent to you along with your photographs when they were returned, we will try to find out what happened. Surely some mistake has been made, and although it is too late to rectify it in the present case, we don't want anything of this kind to happen again if it can be avoided.

We appreciate your kind words about the article and all your pleasant cooperation in general. As soon as you send the layouts we will try to trace down the mistake and let you know what we find out.

With best wishes,

Sincerely yours,
