Dear Laura Gilpin:

We have been extremely pleased looking over the transparencies that you sent us under date of April 25. Of the group, we would like to hold one 8x10 entitled "Old Mission at Taos Pueblo" and the following:

Shiprock from Lukaichukai Mountain
Early Snow
Hunter's Dance Tesuque Pueblo
Palomino Stallion
Frosted Pine Branches

All of these are exquisite and while we do not know just when they will appear in our magazine, we would like to have them on hand available for consideration immediately. If, at any time, you need any of these transparencies, please wire me collect and we will send them with all haste, either to you or to any address that you give us in the United States.

This material that you sent is outstanding. I am particularly in love with your shot, Ship rock from Lukaichukai Mountain, and I hope to prominently display it in our December issue this year. It is surely a pleasure to have the chance to look at your material and it will be a greater pleasure for us to present it in our magazine.

We surely appreciate your interest, we hope that if you have anything else, either in color or black and white, dealing with the southwest theme, that you will send it along to us. I promise you that from now on, we will not take such a long time in giving you a report on what you have submitted to us.

Sincerely,

Raymond Carlson
