Santa Fe, New Mexico

Dear Miss Gilpin:

We are trying to design a commemorative plate for the Grand Imperial Hotel. As you took the pictures at the Grand Opening, would it be possible for you to send us some of the scenes of the interior of the hotel? What we plan to do is to send them to the plate manufacturer for his design. Please bill them to the company.

Very truly yours,

JACKSON HARDWARE, INC.

"Everything in Hardware Since 1885"

JACKSON HARDWARE, INC.

DURANGO, COLORADO

Dear Customer:

We are proud to announce the completion of the companion plate to the famous "Emma Sweeny." This plate pictures the famous "San Juan." This is the last deluxe narrow gauge train in the United States. We think it is entirely fitting to dedicate a plate to this famous little train which pulled thousands of the miniature coaches to the mining camps in Colorado. We believe you will agree the plate is attractive from the picture below:

Colors are the same as the "Emma Sweeny" plate and will make a perfect companion plate. Choice of three colors: Maroon, Brown, and Blue. Due to an increase in cost the plate is \$2.25 postpaid. We are sure you will find this plate most attractive and welcome souvenir from the Narrow Gauge Capital of the World.

Send orders with check or money order. No C.O.D.'s please.

Mesa Verde

"The Green Table Land"

MESA VERDE, The Green Tableland, is located in Southwestern Colorado and is one of the most outstanding attractions of the Southwest. For five centuries before 1295 A. D. an advanced Stone Age people lived in the many thousands of ruins which still line the deep canyon walls. Made a National Park in 1906, the ruins are protected for all to enjoy. Our plate depicts three of the outstanding cliff dwellings on the Mesa Verde: Cliff Palace, the largest ruin ever discovered, Spruce Tree House, and Square Tower House.

We hope you like the plate and look forward to receiving orders from you. Again, as before, it is available in Brown, Blue and Maroon and sells for \$2.50 postpaid in the United States and Territories. Plate hangers are available at 35c each. We hope that you will feel as we feel, that it will make an important addition and companion for your other Narrow Gauge plates.

Other available Souvenirs in the series commemorating the celebrated Narrow Gauge are "The Emma Sweeney," "The San Juan," and "The Galloping Goose."
