Hollywood 46
California.

Dear Sirs:-

Enclosed please find 5 8x3 1/4 color transparencies from which I want 1 Hi-Fidelity print of each. These are air shots. Please do not mount these prints as I will do it here. I hope that these will make satisfactory prints. They are a little on the heavy side owing to the necessity of speed in the making, so keep them a little lighter if you can.

Are you making any of the small contact prints such as you made for me last year? I may have an order for you in a few days.

I also want to know if you can give me some information as to the cost of printing 35mm black and white rolls. I am photographing the collections at one of the Museums here in Santa Fe, and the cost of printing these in a small printer where I can do only two at a time is running too high. However the Museum director is fearful of damage to the sprocket holes on the roll when printed on a mechanical printer. In making these negatives I am making every effort to keep the densities as uniform as possible. There would be five duplicate sets wanted on each roll.

I enclose my check for \$75. for the color prints and will look forward to seeing the results.

Very truly yours,
