Dear Mrs. Beck:-

Several times I have stopped by your house but I never find you at home. I would appreciate winding up my accounts on 837 El Caminito. The cost of the gas stove, the installation, the cost of the tile for the drain came to \$78.00. I hope that \$50. will seem a fair price for all of it. The stove was used for two years and was put in new.

I put in eight vigas all to-gether, six for the shelter, and two for the clothline. An exchange will be satisfactory to me if you have others to replace them

We have been very busy ever since we moved. Miss Forster's sister and brother-in-law have just been here for a two weeks visit and we have been on the run to show them the country.

We do want you to come over and soon,

Cordially
