

June 25,
1952.

Mr. Everett Capp,
Lawrence Photo Supply Co.,
Wichita, Kansas.

Dear Everett:-

I have suggested to the the new Museum of International Folk Art, here in Santa Fe, that they send their business to you for prompt and good service. I think that you will find this new important Museum a very good customer and I was very happy to recommend you to them. Both they and I have had trouble recently in securing needed material quickly and while the Museum feels and so do I that we want to support local stores, there come times when failure to produce the goods can cause a lot of trouble. I was very grateful for your prompt sending of the 8x10 color film. I have an important job on and and I appreciated your quick response.

I hope that the Museum will give you lots of business. If you have a catalog will you send one to Dr. Bruce Inverarity, Museum of International Folk Art, Santa Fe. Incidentally I should like one too.

Enclosed please find my check for the color film which I think squares my account with you to date.

Sincerely yours,
