

Nov 29,

Dear Mr. Crosby:-

I am distressed if there has been a misunderstanding on prices. I don't know how I could have said \$30. on a duplicate set particularly printed on the large paper. My regular rate is \$10. on the first print and \$5. to \$7.50 on duplicates depending on size and choice of paper. I made these to you at \$6.50 and \$10. for making the portfolios and giving the plastic coating. I wonder if I could have said \$30. at a time before we added so many pictures?

I greatly dislike any such misunderstanding and I shall certainly adjust this. Would \$150. on the whole job seem fair to you particularly as you have two air views included? To do those on a straight job would be considerably more than \$10., but I wanted to include those when I had a job that I could do at the same time. And the dozen rate on the Architectural pictures is \$100. on the first set as I am sure you will remember. I still can't figure out where \$30. could have been mentioned. I am extremely sorry any such misunderstanding should have occurred.

I was a little afraid of those binding rings. That was the only size I could get here. I will order some larger ones to-morrow and send them on to you or if you prefer will have them here when you come. I hated to delay another week in sending you the portfolios. The rings are very simple to put in and I can do it in a short time. If there should be any damage to the covers from these present rings, I will replace the covers, though I hardly see how this could happen.

Assuring you of my regret over any quotation, I am

Sincerely yours
