

June 27,
1952.

Mr. Edward Deis,
4108 Oak Lawn,
Dallas, Texas.

Dear Mr. Deis:-

More than a week ago Mr. Stubbs gave me your letter requesting photographs of Taos material. I apologize for being so long in answering but I have been extremely busy with several lines of work on at once. I shall be glad to make these photographs for you. It is a little hard to estimate the cost as I do not know what I shall run into in the way of time in getting it all done, nor how many subjects will be found.

How would a price for a day's work (or more if necessary) plus trip cost? I shall be glad to do it for \$50. plus \$15. car cost. I think one day should do unless I find difficulty in locating the material. However as I know plenty of people in Taos, both Indian and Anglo I believe that I can do the job in a day's time. Would you want a few color trans. to give the the color accurately? I have a Medalist with plate back and I do a great deal of color work with it using cut film rather than roll film.

I could do this either the end of this ^{coming} week or early next week.

Sincerely yours,
