Mr. Paul L. Davis,
Midland, Texas.

Dear Mr. Davis:-

More than a month ago, I had news that Amerada had brought in the well in Lea Co. in which my sister-in-law and I have an interest. R.E. Sec. 23 Township 11, South, Range 32 E. (the south half of this section in which we have a 1/16 interest.

One or two oil people here in Santa Fe have kept me informed on this and also have told me that I should receive papers to sign as production from this well is under way. To date I have heard nothing from Amerada or anyone connected with this business.

Needless to say, we are anxious to learn all we can about this well and to have some idea of its productive value and future.

Would you be so kind as to inform me or turn this over to the whoever is in charge of this particular well?

Very truly yours,
