Mr. John F. Peckham,
The Meriden Gravure Co.,
Meriden, Connecticut.

Dear Mr. Peckham:-

The Proofs came Friday afternoon and I return them herewith. Everything is O.K. though I am a bit disappointed in the trim on the card of Silverton, Colorado where the mountain is cut. The only alternative is to make the picture smaller and the end margins wider, but if this has gone beyond the stage of reduction, let it go. Everything else is all right and I believe that these new cards will be good and I hope quickly saleable. I am going to try to push all these far more than I have done hitherto. It has been a small side issue, and I know that with more effort I can give them a far greater placing.

Next year, the new highway in to de Chelly will be completed, and the sales of cards there should be excellent.

I hope the cards will be coming along before too long a time.

Very truly yours,
