Miss Laura Gilpin
Box 1173
Santa Fe, New Mexico

Dear Miss Gilpin:

When we were making up blueprint proofs of your four new subjects the question came up of their trim. Your letter states that they are not to be cropped, but for space to be left at the bottom. Due to their proportion, space will be left on two sides additional in doing this. We have pasted the blueprints as we consider best and will be interested in hearing your comments when you have seen them.

In view of these questions, we are not printing the illustration side of the cards yet as I had written you. We look forward to the early return of the proofs.

Very truly yours,

THE MERIDEN GRAVURE COMPANY

P.S. If they are not to crop at all should there not be margins on all 4 sides?
