March 16, 1953

Dear Laura Gilpin:

We have gone over some of the color that we have been holding and have decided to return to you this most attractive 8x10 transparency. It is simply lovely but we feel that the subject matter is just a little bit removed from our travel field.

We have listed it, however, in our catalog and should we have occasion to use it in the future we will write to you. According to our records then, we still have two snow pictures of yours in our files. We are holding them for consideration for our December issue of this year. If at any time you need them please wire me collect or call me collect and we will send them to you at once.

In planning our December issue this year we are also trying to get together two features, one on Rainbows and one on spectacular Evening Sunsets. If you have anything pertaining to those two subjects we would be grateful to you if you would send it along for consideration.

Sincerely,

Raymond Carlson
