P.S. Transparencies
being returned
by parcel post.

Miss Laura Gilpin
Box 1173
Santa Fe, New Mexico

Dear Miss Gilpin:

It has taken us much longer to reach a decision on our color plans than I had anticipated. I hope that our holding your pictures so long has not been an inconvenience.

We are using one of your shots of Shiprock in the current issue, the negative, and a check, will be sent to you after it is published.

We are planning to use your color picture of La Conquistadora and Fra Chavez in the Santa Fe issue--scheduled for August release. With it I will use some of your black and whites for the story: since it is not yet laid out, I do not know how many.

I am returning herewith 23 of your color transparencies. Would you please check them off your list.

We are holding the following color transparencies for further consideration. 1) Conquistadora & Fra Chavez, 2) Pueblo Bonito--glass, 3) Chimayo, 4) aspens, 5) branding with new device, 6) same, 7) roundup, 8) Shiprock from mountain grove, 9) cowboys, 10) Shiprock from irrigated fields, 11) moonrise, 12) Atom bomb site, 13) Pueblo woman firing pottery.

Thanks very much for letting us look at these. We will, of course, be happy to see any of your pictures at any time. I may call on you when I have problems.

page 2

Incidentally, the photograph you took in the Picuris area for Dr. Arthur Montgomery is about to be published in his geological report for the State Bureau of Mines as the frontispiece. I designed the book.

With best regards,

Roland F. Dickey
