The American Calendar Agency,
210 West 8th St.,
Kansas City 6,
Missouri.

Dear Sirs:-

Herewith are twenty two color transparencies for your consideration. Some of these are very recent, some a year or more old, but have not been submitted elsewhere. I am working on a big book, and I have an unfortunate ^{was} of doing things like the Cherry Blossoms, No.5, and then putting them away and forgetting about them. I am trying to mend my ways.

I have sold similar transparencies of two of these only. No. 9. A somewhat similar one to Eastman Kodak two years ago, and No.2. to a local postcard outfit. The reproduction is so bad I hate to have my name on it.

I hope very much that you can do something with most of these. If you want any further information on any subject enclosed, I shall be glad to send it, such as Be-ta-ta-kin.

The book on which I am now engaged is about the Navaho Indians. I have many color transparencies, made as I have done my black and white work, which I can release before too long. The book is scheduled for next fall.

After Christmas, I shall get up into the Colorado mountains for new color transparencies. We have just had the greatest amount of snow in some years and the mountains will be beautiful and should yield calendar material. Will probably work all sizes. I process my own Ektachrome so will have no delay.

Wishing you good luck on this first batch and hoping that we can work out a good business together, I am

Very truly yours,

Laura Gilpin
