Dear Mr. L.L.

It is incredible that I have let so much time go by without ordering these envelopes. The Navajo Museum is wanting to know where they are. My fault entirely but I hope you can make my sins as light as possible by getting these out in a hurry.

Six thousand postcard envelopes all told. Five different sets. All different copy on one, the rest for my own, with captions different only (and set numbers) with the rest alike. I am sure that you will have no difficulty in all this as I have indicated on three sample envelopes and the copy for the other two on a piece of paper. No price on these as it may have to change. Also omit the old G.P.Co. design. As I am paying on all these reprints and the new sets, guess I'll go it alone.

Please get these out first. Then when it is convenient will you send me an estimate on stationery. I am out of everything and my small monogram seems to be lost. I let someone have it for an add and they say they returned it but I can't find it. So please send me prices on the following:

New monogram of die. I can supply the large one, and I imagine a good clean print of it will suffice to make a new smaller one. I want the same size as is on the enclosed envelope.

Price on 500 sheets each of these two sizes
" " " correspondence cards

I seem to have enough envelopes for the time being.

Since I wrote you last we have moved to a far better location and a house that gives me a fine studio. I have a very good darkroom too. And on top of all that we now have seven poodle puppies! Wish you could see them. When are you ever coming down this way? At the moment it is snowing and all New Mexico fruit is frozen. We have two beautiful apricot and three peach trees in our yard, and we are sad over that. I hope to be coming up about the middle of June.

With the best of wishes to all of you

Sincerely yours,
