Santa Fe, New Mexico

Dear Laura Gilpin,

It's about time I got at the little job of explaining why there was no mention of Aspen in the last issue of the magazine. Chiefly because there were not enough responses from the former panel members to prepare a report. My many thanks for your efforts nevertheless. I am still wondering what is to be done about a second conference. Dorothea was thinking of getting busy on the task. It means travelling around the country and talking to various individuals who will back it with funds as well as enthusiasm. But she is thoroughly occupied with the Family of Man show. It remains a wonderful thing to several people. APERTURE was one outgrowth, and doubtless there are others.

Best wishes for this and that holiday as they come along.

Cheerio,

*What are you working on
these days*
