I'm sure there are others I am forgetting at this moment so add more when you send the prints from which I am to select subjects for enlargements.

I wanted to tell you also that not only am I anxious to have photographs of these symbols & people — but I wanted very definitely for us to have examples of your work in this exhibit which will use the works of artists to put over the various ideas —

I hope you will have time to send these prints for selection before you launch into Navajo land. Good luck to your book-in-progress —

Cordially
Jerry Bywaters —

P.S. If you have a few Texas ^(cowpunchers) ranchers or vaqueros, please send along some prints of them since I want to use some photos of Anglos as well as Indians —
