Miss Laura Gilpin
Box 1173
Santa Fe, New Mexico

Dear Laura:

Thanks for your note as you were trying to "take off" for your trip. The things you outlined were fine. We will be very privileged to use the new Navajo photographs and will return them to you and will not reproduce them. I do hope you can let us have a print of the ^{face} Pueblo ~~as large as possible~~ as large as possible. We can use it no matter how small. Would the Shepherd of the Desert make a half-mural size better than some others? It is a very interesting subject. If not, then I suggest the front of some of the better known churches - which were not among those I listed. Or, better still, George Lopez (No. 99) with his wood-carvings which I did list for a smaller print.

Hope you had a fine trip and many thanks in advance for getting these things to us at your earliest convenience.

Sincerely,

Jerry Bywaters,
Director
