Dear Laura:

Your prints are being sent along under separate cover by parcel post so they will be there quicker; we are sending The Weaver #47, Summer Hogan #44 and Sand Painting #41. I am also sending a photograph of the Navajo Silversmith #39 because I imagine that you want it but neglected to mention it. Naturally we would like to have any or all of these when you have finished with them if you think we deserve to have them after the book is issued. We are trying to build a small circuit show on the arts of New Mexico and these would go well in that series, along with your other photographs.

We did receive the seventy sets of post cards and will pay your bill now that we have received it. Good luck with the Navajo book and best personal regards.

Sincerely,

Jerry Bywaters
