August 13,
1954.

Dear Carol

Your good letter has just come and here are the answer to your questions.

1. Title. THE NAVAHO PEOPLE
2. Time. Can adjust to school schedule
45 min to 1.20
3. Photographer. Author of RIO GRANDE etc.
4. \$50. for schools

When I showed these at the Fountain Valley, Mr. Poor said 40 min was all the boys could take. I tried to cut it, left out a few slides and found that I was really holding the boys' interest and ended up a little over an hour. As to fee, the two Colo. Springs showings were \$50. ea. and the one here at the auditorium \$75. I hope that the \$50. fee will fit school budgets. As color slides have a limited life, I can hardly do it for less. And I must have my own good projector, that is on the "want list" but a must as soon as a few showings are booked.

My show opens at the Arts Club on the 17 of April. There is a dinner etc. on the 21st. A possible showing of the slides then though I have not yet had an answer about this. So yours could be say the 18th or any time right after the 21st. You pick the date.

I hope that it will work out that Betsy can come along. Much depends on the book, how long I would have to be in New York etc. We have two other invitations for visits and possible showings of slides, up north, N.Y. state and Mass. It would be fun if I can persuade her to come, and I shall do my best.

It was good indeed to see all of you, we always look forward to your coming. Since you left we have had a lot of rain and country is wonderful. We hope to get off west before very long.

This brings our joint very best to the three of you, and big excitement in looking forward to our trip east.

Affectionately
