

Nov. 17,
1954.

Dear Miss Speer,

Again I am long in answering your letter. Miss Forster and I have been up in Colorado on a business trip and returned three days ago. And I have been working on a schedule for next spring.

The evening of Friday, April 15th, would be the best date for me, and I am glad that it is a good one for you. As my prints for the exhibition in Washington will be sent on ahead, there is no need for me to be there until the 17th, or the evening of the 16th.

So, it seems we can settle on the April 16th date. I have some tentative dates preceeding this on my way east. But I have been waiting to hear from Washington about dates after April 18th, and I only hope that this delay has not inconvenienced you too much.

I shall ~~ben~~ looking forward to the visit to your school with much pleasure. I suppose I should let the Baldwin School know what I am doing. I am an ex student of a great many years ago. As I went to two shcools, Rosemary Hall also, I seem to be a very poor alumna. Is Miss Johnson still the head of the shcool? If anything should work out there it would be after I come to you.

Very sincerely yours,

MARGARET BAILEY SPEER
