Dear Betty and Laura -
Quite a pleasant trip up - This, perhaps,
being due to a comfortable overnight
stop - ~~xxx~~ in Raton - Saturday was
a lovely day - so W. came down to
meet me - She is better than I
expected to find her - the doctor's
concern now is her gall bladder -
At the last few days have been very
cold - such beautiful white - really
hoar frosts each morning -
Enclosed are two clippings which
will interest you - the uranium hunt.
Let's hope some law and order can
be established so ^{all} their money will
not be spent for drink -

Thank you again for the beautiful
turkey dinner -
Do look out for the review of Paul's
book in last week's New Yorker
My love to the two ladies!

R -
