

March 31,
1955.

Dear Miss Bekkedal:-

The prints will be shipped to the Arts Club in the next few days. I had expected to send them by express but I find to-day that there is a strike on in the express company so I think I had better send them by parcel post. They will come in two or three shipping cases and will come either special handling, or special delivery.

I have been long in sending you the enclosed list, but the little friend who lives with me has been very ill with shingles and has required much care, so that my desk has been very much neglected. I hope it is not too late to send this in to you. I have a young cousin Howard O. Allen, of Arlington, who is a photo-

grapher and I hope he and his wife can come and take my place the day of the opening. The invitation that goes to Mr. Frese of Hastings House is chiefly to let him know what goes on.

I will write you further in a day or two but I want this to go off at once so that you may have this list.

The prints should reach you not later than Apr. 12th.

With best wishes, hastily
