

January 7  
1955.

Dear Jimmy:-

Thank you so much for your lovely little photograph. Its nice. We are sorry indeed that we missed you on your way home. When was it? Sept. or Oct.? We were out on the reservation both months for ten days or two weeks at a time.

Also many thanks for the invitation for the show. I think I can make it all right. What time in February and how many prints? Can I send some RioGrande prints as well as Navaho or a mixed group of subjects? I am going full tilt to finish the Navaho book. Encouraging news at last towards publication though nothing final as to date etc. But I go east about April 1st. Am showing my Navaho color slides ( for pay \$50. to schools \$75. for larger groups). Have several dates already booked. Also having a Navaho show in Washington opening April 17th. I can combine yours and this to some extent. And I shall probably have to go to New York first about the book. So you see my days are full indeed.

I yet have one more field trip to make. I would love to run down to Tucson if all this comes off, but could only spare the time if I were already part way there. I showed my slides in Albuquerque in Nov. to the S.W. Librarians Asso. arranged by Miss Paylore of your university. Very nice person. Wonder if I could get a date in Tucson? This everlasting business of filling to purse is a bother. But anyway, it would be fun to come down if I could.

In the meantime a very happy New Year to you both from us
