Dear Mrs. Gilpin:

We are mailing the proofs back to the Adlers who will return them to you.

After studying the proofs we find that our first and second choices black out when viewed from the distance of a very few feet.

We would like very much to have photographs that show Wendy's face more clearly.

If you believe that the lighting effects could be more successfully handled in your studio--Mrs. Adler could undoubtedly arrange to bring Wendy to you.

Will look forward to receiving the proofs from the re-sitting at which time would you also send the 3 choices from the original group.

Sincerely yours

Mrs. Manning E. Handler
