Dear Laura:

We are glad that you are on deck and having a good time en route. This week end would have been very good and we were sort of expecting you for the 15-16. However, if you are with Miss Putnam and in no dither - we can find another equally good time.

On Oct. 22 we are going to Princeton with a Graphic Arts group to see certain treasures of typography, and we may stay over to Sunday. Doug's wife's parents, the Magnussons are en route to the East from California and at some point will be with us a few days. They are very congenial- in-laws- thank heaven, and we really enjoy them as friends quite apart from the in-law relationship. I think I should ~~hear~~ from them soon- so that if you call on the 18th, I surely should know.

There are many people + would like to invite to hear you talk and show slides- but + would have to know in advance day and time- Probably a week end would be best- therefore - tentatively should we say Oct 29-30 ???

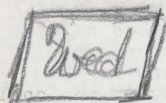

If Miss Putnam would like to come also, she would be most welcome.

I am getting to serious professional work now -(see letter head) for both our boys are away at college, and my maternal role seems pretty well over the mountain. More of this later. It will be fine to sit down for a good talk before the fireplace and catch up.

Very best to you,

Barbara
