

THE POTOMAC SCHOOL
MCLEAN, FAIRFAX COUNTY
VIRGINIA

April 26, 1955

Dear Laura,

We are both of us heartsick to know that you have been through so much sickness and trouble, and that Betsy is still having to suffer so with the shingles. We just cannot bear it, and wish there was something we could do to help. We had been looking forward to seeing you and hoping that perhaps Betsy would be with you; it seems ~~too~~ bad that this had to happen this year. We will look forward to October 5th or around that date, and we hope that you can bring Betsy and leave her with us while you move around, we would love it.

I am deep in the plans of my Girl Scouts' trip for this summer. I leave June 16th with fourteen girls and two Leaders, and we do not get back until September 9th. Carol will be with me part of the time which will be great fun. Both of us are going to miss our beloved Tin Cup and our visit to you and the Indians. We will often think about you and hope that 'the shingles' clears up rapidly now.

Our love and best wishes,

Affectionately,

Seth

P.S. Are shingles plural or singular?!
