Dear Laura

The wildflower slide exhibit seems to be such a success that the Garden Club (Broadmoor) is looking into the possibility of having a duplicate set made and donating the whole thing, show case light-tubes and all to the library here. Of course this is between ourselves as we do not know yet whether we can do it so I suppose nothing should be said.

Would you consider having
duplicates made for us each?
Also, could you give me a price?
I have a feeling that being in the
photograph business you would
have to charge for the use of
your slides as well as the cost of
making the duplicates..

Ben designed a wonderful show
case with ^{two} ~~an~~ eight foot neon tube
lights, white, and as they never heat
up and the whole thing is open
any way, the thing can be left on
all day!

2.

We have 100 slides, ~~17~~ 17 of yours,
3 of Bens, ~~20~~⁴⁰ of Bill Penland's small
ones and ~~20~~⁴⁰ by Harold Roberts.

The exhibit is creating quite a lot
of interest and people have been
in to see it where we have it
down stairs until the Annual
meeting.

I hope you and Betsy are
both well and that everything
is going nicely.

Love from us both

Harold G.
