Dear Miss Bennett:-

Thank you very much for your letter of July 20th. which I recieved only day before yesterday.

Just as quickly as I can gather the material I have in which you might be interested, I shall send it on to you. I did not know of your agency until very recently and Eliot Porter speaks highly of it. At the moment both he and I are laid up pretty much by bad backs. Very disturbing to photographers.

For too long a time I have been immersed in a book, nearing completion and have been more or less out of the current running. But I hope to emerge very soon.

Perhaps the categories to which I might contribute for this book of yours, will be in black and white, of trees, and color of Colorado wild flowers. The latter are all mounted as slides (3 1/2 x 4) and I shall select the best to send you. I shall try to get these off to you as early next week as possible, but I must go to Albuquerque Monday to an orthopedic M.D. for examination, and as soon as I return this will be first on the list.

From what Eliot tells me you have already selected from him, I suppose birds and insects from his superb things. I hope you will like some of my trees. Indeed, I remember you from U.S. Camera, and I am delighted to hear from you in this new and interesting capacity.

Cordially
