

August 24,
1956.

Dear Miss Bennet:-

Little did I think that I would be so long in getting these prints off to you. It may be too late but I send them anyway. Two very important jobs came along that I just had to stop and do. Here are 21 prints of trees and plants. A few are not glossy prints but I could make them quickly if they should be selected. I hope that there will be something here for your use and that it is not too late.

Hastily

8x10 prints of trees and plants.
