Mr. Richard J. Walsh,
National Council of Catholic Men
270 Park Ave.,
New York 17, N.Y.

Dear Mr. Walsh:-

Your letter with your check for \$100. came Saturday. Thank you very much. There were indeed many disappointments over the broadcast. No one in New Mexico was able to see it due to a power shortage from a big thunderstorm in Albuquerque at that particular time. I know of many groups who were gathered about television sets to see it specially for the interest in Paul Hergen and Father Angelico. I had a note from Father Angelico written that Sunday telling of the last minute change of plans. I have not seen him since his return. I am hoping that the broadcast was photographed for rebroadcast in this area at a later date.

I trust that you will advise me of any future use of the photographs. My interest was particularly in the subject of this particular broadcast and the individuals connected with it. The release I sent you was for this broadcast only. I spent some three days preparing the proper prints for this and under any other circumstances my recompense would be considerably larger.

I am sure that the broadcast was a success and a most interesting one, and it was with great disappointment that my particular group finally turned off the set.

With best wishes and assuring you of my interest in such broadcasts, I am

Very truly yours,
