

New York, NY.

February 2, 1956

Dear Miss Gilpin:

Thank you for your letter of January 14 and for the two rolls of Kodachromes, which arrived also in due time. They are now back from processing and we have selected from each subject one transparency. I am sending the rest back to your address with the same mail.

We are delighted to have this addition from such an expert hand, for my lecture -- and I am sure the pictures will add attraction to the performance. By now we are ready with our preparations, on general lines, and we hope we can fly to Lisbon next week as scheduled.

Your Navajo slides were naturally very well received; an authority who has seen so much, with a special eye, is bound to find an appreciative public.

My wife joins me in best wishes for a pleasant Spring.

Cordially yours,

Paul Kelemen
