Santa Fe, New Mexico

Dear Laura:

Many thanks for your letter of February 15. I have been looking forward to the arrival of the slides but nothing has come in as yet, although it is only a week since you shipped them. I am sending this note along Special Delivery in the hope that nothing has gone awry, but if they have not been shipped please advise me so that I will be able to make other plans for March 1. You are very generous to let go of your valuable materials and I assure you that I will be very careful with them. We have a Spencer projector with blower which will do the job.

Greetings to you and Betsy Foster.

Yours,

Mitchell A. Wilder
