SILVERSMITHS

27 January 1956

Dear Laura:

The second batch of pictures arrived which together with the first begins to tell a very real story. Emily Nathan was here for the Sales Meeting this week and she, too, is very pleased.

Margret and I are distressed to learn of your continuing difficulties but I hope that they are beginning to resolve themselves. Sometimes when it rains it pours, and evidently this may be one of those situations.

We shall be much interested in the fourth transparency of the bowl which you found. One of the three which you sent is certainly a winner but your remark that this one is even better intrigues us.

We are delighted that you and Betsy are using and enjoying the salt and pepper mill. All good wishes.

Yours,

C. C. Withers
