Dear Laura,

Have just returned to home base, and am wondering if you had a good trip, and filled in some of the missing links.

Imogen Cunningham, in San Francisco, said she hoped she'd have a chance to meet one day. If you are ever out there, do see her. Her address is 1331 Green. I called Ansel but he was out of town.

The shots with the 5x7 view camera are a little better than these. However, I like the photo you gave me the best, and will hang on to it if I may.

It was wonderful meeting you and seeing your original prints of the Rio Grande, the dummy for the Navajo book, and your other work. I hope that we'll have a chance to meet again some time.

Give my best to Betsy - and let me hear about the trip.

Sincerely,

Willa Pausal

PS -- Did that lenscap for my Rollei turn up by any chance? I think I may have left it on the hall table the day Marion and Mike came for lunch.
