

Dear Ursi Eilpui:—

What a delightful evening!

Your pictures are of the usual high quality and interest - that goes without saying. But your backs touched us deeply as we are old "Navajo haunts" (mine dating from the remote year of 1913 to be exact) so you may know how we enjoyed your common-sensical backs after hearing the smart young men who go up there for two weeks and profess to know the Navajo. Even after long years here with the Tewa do we realize how little we know.

Thank you again —

Cordially
