Dear Sirs:-

I have one of your enlargers, an 8x10 commercial C2 with 20" reflector. I bought this shortly after the end of the war. My reflector needs to be resurfaced or polished, it has a yellowish cast and I wish to use it for Ektacolor paper enlarging. I understand from my local dealer (Santa Fe Book & Stationery Co.) that you will make some sort of exchange, sending a new reflector and I ship you the old. Will you please send me all information regarding this?

I also want the price on the following items

5x7 glassless carrier (fits into 8x10?)

4x5 ~~same~~

Color slide for holding filters above neg.

212 bulb

2 piece sets of perfect glass for carrier

8x10 & 5x7

The catalogue I have has no price list.

Very truly yours,
