Mr. Alden F. Megrew
University of Colorado
Boulder, Colorado

Dear Mr. Megrew:-

Your letter has been long unanswered due to the fact that I was ill with the flu when it came and following that I had a bad reaction to an anti-biotic. Also I have waited a few days knowing that Mr. Hasselrick was to be here in Santa Fe yesterday, and I wanted to discuss the possibility of a lecture in Denver. He wants me to write to Mr. Conn which I am doing with this mail.

The fee of \$75. will be satisfactory to me, that is what I received everywhere in the east. If I can secure a date in Denver, that will be good. But I shall be glad to come up anyway, as I get homesick for Colorado every so often, and am glad for an excuse or reason to come.

If you will let me know what time in the fall will be satisfactory for you, I can key other engagements with that. I am also due to go to Wichita Kansas some time before too long. And incidentally, I have my own special projector (my slides are 3 1/4 x 4) and signal system, but I would need a tape recorder for a few brief "sound effects".

My prints will be in Colorado Springs until June 1st, should you be down there. In any event I could bring you a small selection. These prints have been shown at the American Museum of Natural History in New York and at George Eastman House in Rochester, as well as here in Santa Fe.

If Denver is interested, I will let you know at once so that we can arrange relatively close dates.

Sincerely yours
