Mr. Guy Neff,
Meredith Publishing Co.,
Des Moines, Iowa.

Dear Mr. Neff:-

Your letter was waiting for me when I returned last night from a trip to Boulder, Denver, & Colo. Springs. I am all ready when you come along. Perhaps I had better ask you just how many 4x5 color you will be needing and all artificial light, or some daylight? I have 12 boxes reserved for me in Denver. As the local stores seldom carry much in stock, I order color film either from Denver or Wichita Kansas. I think I had best have it sent down right away so it will be here and waiting. I just want to know about quantity and whether all artificial light or part daylight.

Calla Hay called me some time ago and said she would tell you she had talked to me and that all time necessary is reserved. There is a woman here, a puppeteer who has great skill and imagination in thinking up unusual ideas. I think she could be very good. She is extraordinary in her ability to make all sorts of things. She needs work and I can engage some time if you think you could use her. She returned recently from a trip abroad. She was one of three Judges at an international puppet show in Bukarest, Roumania, The American judge, and then went to Turkey to do two workshops for State Dept. in the U.S. Education program.

Just as soon as I hear from you I will order film and be all ready for your arrival.

Cordially
