Dear Miss Cahill:-

It is a relief to know that the photographs have shown up. I had those prints on hand and put them in the mail the day I talked to Miss Wentworth so that they should have reached her the next day.

I do not believe that you need any other statement than this that you may use them, though two are from my book RIO GRANDE and one of the others was in U.S. Camera. The fourth has never been used.

Would you be interested in any Southwest architectural material? I am at work at this moment on a series of a lovely house here, all in color, color negative material for Type C prints. Then I have done some others as well. I have one interior of one of the most beautiful old Santa Fe houses. This is a color print and it is mounted. I could send it on for your inspection if you are interested in it. I have done much architectural work in my life. Colorado was or rather is my native state and during my years there I did much work for Denver architects, Colorado Springs architects and later here. Any time that you need anything from this general part of the country, I would be glad to do it for you.

Sincerely yours,
