

YOSEMITE NATIONAL PARK, CALIFORNIA
YOSEMITE FALLS

Yosemite Falls exceed all others in height and fame. The combined falls are composed of the great Upper Fall (1430 ft. high); an intermediate chain of cascades; and the Lower Fall (320 ft. high). The total drop of Yosemite Falls is 2565 ft.

The Yosemite is so beautiful
Yesterday Ernie took me
on a drive over to the big
trees. They are wonderful!
The one you drive through
is here.
The School gets really underway
to-morrow.
