Dear Mr. Neff:-

Everything is all checked and O.K. When the transparencies came back, the package was badly bent up/ I almost missed the 8x10 color of the wreath on the garden gate. Fortunately I had not ~~threw~~ thrown away the cardboards, and after I had written to you I checked over once more and found it. The count is quite correct. There are 18 color shots and 11 black and white which you have kept. I feel badly that I muffed the Dominguez fireplace. Again it was my tilt back that slipped on one side.

I enclose a separate bill on the prints for the Houks.

The purchase order has not yet come. As I have I have several substantial obligations to meet this month, I trust it will be along soon.

Glad you have found the other southwest books. As there was never time to read my RIO GRANDE, would you like me to send it on? I only wish I could present you with a copy, but I have one extra only. I shall be delighted to loan it to you. I know you would understand my problem in boiling down to essentials the whole length of the river. It could so easily have been a three volume book!

I do hope the Shiva window picture will enlarge well. It could be that it would improve it very much.

With best wishes,

Sincerely
