

Dear Member:

The annual meeting of the Archaeological Society of New Mexico and its affiliated chapters will be held on May 16 and 17 at the Laboratory of Anthropology in Santa Fe. All members and chapters and those interested are urged to attend.

At this meeting it is hoped that members and chapter representatives, and interested individuals will present brief, informal reports on activities in their area.

A buffet supper is being planned for the evening of Saturday, May 16, preceeded by a "fellowship" hour for those who wish to participate. The second highlight of the evening will be a speaker of outstanding reputation in archaeology. A field trip of unusual interest will be held Sunday morning.

For a successful meeting, it is important that every chapter and member doing projects, give brief reports on these activities, digs, chapter doings, and organizational problems. The program Committee must have information on the proposed reports by April 15. Plan now to give a report and let us know so we can include it in the agenda. Send me a note today, care of Museum of New Mexico, Santa Fe, and include the title of your paper and a short summary.

A second letter will be mailed after we have arranged the program. Reservation information will be supplied at that time.

Sincerely Yours;

Fred Wendorf
