Miss Laura Gilpin
c/o William Friedman
Hotel Merida
Merida, Yucatan, Mexico

Dear Laura:

I was delighted to have your card this morning and to note that you and Joe are doing well despite the heavy load you took with you. I hope this trip will be a very stimulating and profitable one for you. Perhaps a new book will come out of it.

You may remember that we failed to locate thirty-six (36) Polaroid films in the shipment from Lawrence Photo Supply in Wichita. Mr. Kapp thinks he shipped these films, and I must admit that in the frantic last minute rush they could have been overlooked. Please let me know if they show up when you unpack the material from Lawrence.

After you left, I found a small carton of photo supplies which I believe should have gone with you. I shall try to get these supplies to Yucatan as soon as possible.

Say hello to Bill and Joe Mejia, and take good care of yourself.

Cordially,

Merle
