Mrs. Willena D. Cartwright,
State Historical Society of Colorado
Denver 2, Colorado

Dear Mrs. Cartwright:-

I am very pleased indeed that you liked my Navaho slides. It has been a long though most interesting and rewarding work to put this all together.

As a matter of fact I have been thinking of going up to Colorado Springs. I seem to be needing a change of glasses and I still go back to my former doctor. I have not reached any specific date. I am leaving Wednesday to show the slides at the Nelson Gallery in Kansas City and also Wichita on my way back. Then I have also had requests from several Museums in Texas and Oklahoma, so it looks as though a circuit were building up.

I should be most happy to come up to Denver for a showing with you. I see the names of several acquaintances and old friends on your list of Directors. Mr. Evans, Mr. Shafroth, Dr. Stearns, and then ofcourse I grew up with the whole of the Jackson family. I usually receive a stipend of \$100. The life of these color slides is limited and the problem of making perfect duplicates is a job I have undertaken only in spots. I have my own special projector but I would need a screen and the use of a tape recorder for the short sound moments.

It would please me very much if find that you can arrange a showing. Mr. McClure seems to lining up four shows in his area and as soon as I get dates established there I will communicate with you if you wish me to come.

Thanking you for your enquiry, I am

Very sincerely yours,
