

October 4,
1960

Mrs. Charles Collier,
Los Luceros,
Alcalde
New Mexico.

Dear Mrs. Collier:-

I dont know why so much time should have gone by in the making of these prints. When I talked to you on the phone, I had already made the slides on a film which I could process myself and be sure of what I had before I returned the originals to you. Having had much trouble over laboratory processing I always do my own. So after talking to you I rephotographed the originals on the color negative material from which these prints were made. So that the only "factory" part of this job was the making of the small prints. These, ofcourse, are included on the bill I sent you. I trust that everything is satisfactory.

I am leaving to-morrow for a quick trip to Kansas City and will be back on the 13th.

I hope you are feeling much better and I shall hope to see you again before too long.

Very sincerely yours,
