Dear Mr. Meyer:-

Thank you very much for your letter and enquiry for color transparencies. I am sending you herewith, a selection of what I have on hand. I am including some Navaho things and a few landscapes. Unfortunately my supply of Pueblo material seems somewhat depleted as I sold quite a few to the Golden Press for the forthcoming book of Oliver La Farge. One in particular that I let Mr. Trautwein have, I wish I had here to send you. However, I hope that you may find something here to your liking. Most of them are 4x5 or 5x7 but for action shots, such as a Pueblo dance, I use a smaller camera. I have had several of these reproduced to a considerable size.

Thank you for the set of reproductions which are excellent ones, I am very glad to have them. I hope very much that you will find something here to your liking. I am including one of my very best Navaho transparencies which will eventually be used in my Navaho book. I have long intended to make a set of separation negatives of this, but something else always seems to interfere. In the event that you should wish this particular one, for how long a time would you need it? I just have unmasked it as I was about to make a print proof for the dummy of my book.

I am leaving Oct. 6th for a week's trip but will be home again by the 12th.

Very sincerely yours,
